- <https://leetcode.com/avi0070>

COURSEWORK

- Database Management System
- Object-Oriented Programming
- Operating System
- Web Technologies
- Data Structure and Algorithms (Java)

TECH STACK

React.js, Next.js, Redux, TypeScript, JavaScript, Styled Components, RESTful APIs, Jest, SQL, HTML, CSS, Java, OOPS

TOOLS

Git, GitHub, CI/CD, Firebase, Jest, Web Sockets

EXPERIENCE

Software Engineer | ENS Enterprises Pvt. Ltd. — Noida, UP

Dec 2023 – Present

- Contributed to the design and development of responsive React.js interfaces for client and admin applications, improving overall user engagement by **20%**.
- Collaborated with backend and product teams to integrate RESTful APIs for end-to-end CRUD workflows across multiple modules.
- Worked on Firebase-based authentication flows, ensuring secure access control and consistent session management.
- Partnered with cross-functional teams to translate business requirements into scalable and maintainable frontend components.
- Participated in code reviews, bug fixes, and performance optimizations, improving UI stability and responsiveness.

CLIENT PROJECTS

Lakmé Website & Admin Dashboard

Tech: React.js, RESTful APIs, Redux

- Collaborated as part of the development team on the Lakmé customer-facing website and admin panel, contributing to both UI implementation and dashboard functionality.
- Worked extensively with multiple RESTful APIs to power admin workflows, analytics views, listings, and data-driven UI components.
- Contributed to building admin dashboards for managing content, products, users, and operational data through structured CRUD flows.

Rajnigandha Customer Loyalty Platform

Tech: React.js, REST APIs, Firebase, Redux

- Collaborated as part of a development team to build a customer loyalty platform with purchase-based point allocation.
- Contributed to customer, gift, campaign, and analytics modules, handled **17 lakh customer records**.
- Assisted in automation and data migration workflows, helping reduce manual processing errors by **30%**.
- Integrated and optimized RESTful CRUD APIs, contributing to **15% improvement** in response times.

Aumraa – Admin Management System

Tech: React.js, WebSockets, Firebase, Material UI

- Contributed to an admin dashboard managing **1,000+ practitioner profiles**, services, and media assets.
- Implemented and maintained role-based access control (RBAC) features in collaboration with the team.
- Worked on WebSocket-based broadcasting for admin actions, live status updates, and automatic logout across active sessions.
- Helped streamline admin workflows through centralized dashboards, reducing manual review effort for operations teams.
